

cultivation CORRIDOR®

The science that feeds the world.

CENTRALLY LOCATED, IDEALLY SITUATED

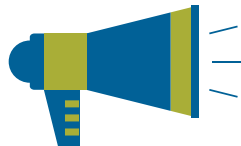

With abundant access to biomass, a globally strategic location, unsurpassed R&D footprint and the support of a business-friendly state government, Iowa's Cultivation Corridor is one of the world's most productive bioeconomies.

The Corridor has the nation's most advanced agbioscience distribution network.

The Corridor sits on 25% of the earth's richest topsoil.

Central Iowa announced \$377M in agbioscience investments in 2014.
